TRAYMORE FRIDAY CHATS. ONE OF THE HAPPY ISLES.

"Varied and changeable are women," runs the Roman proverb, but the weather is even more so. The climate of Atlantic City, however, has a reasonable degree of steadiness. And there are the casual breezes that are rounded by great stretches of temperate salt water that make the air above an enclosing wall of protection, like a thermos bottle. Then, too, the island runs inland to the west, thus obtaining the full bounty of a southern exposure to the warm Gulf Stream winds by off-shore winter sun. Cooled by the breezes of summer, warmed by the sun and ocean in winter, Atlantic City is one of the "Happy Isles" that the ancients vainly sought. The Traymore stands fronting the sea, with per cent of its windows dominating the ocean.
